

Safeguarding Statement

Our aim

1. Safeguarding is an all encompassing term used to describe many aspects of College life including:

- Learner health, safety and wellbeing
- Child protection
- Protection of adults at risk
- Bullying, harassment and discrimination including racist abuse
- Abuse and neglect
- The use of physical intervention
- Meeting the needs of learners with medical conditions
- First aid
- Alcohol, drug and substance misuse
- Intimate care
- Internet safety
- Educational visits and external events
- The security and safety of Elevated Aspirations Ltd® venues or places of learning.

The Safeguarding and Child Protection Policy covers all youth: members, learners, and volunteers whether they are based in Elevated Aspirations Ltd®'s venues, places of learning or in work place learning; it covers all aspects of a members or learner's programme or positive activity regardless of where it takes place.

It is the responsibility of all Elevated Aspirations Ltd®'s staff to understand their role in supporting safeguarding across the College provision and for familiarising themselves with the appropriate procedures and other policies that support this overarching document.
